From the Bridge

We hope you enjoy a memorable day at sea, Pacific Adventure measures an impressive 289 meters in length and has a gross tonnage of 108,000 tonnes. Launched as the Golden Princess in 2001, she seamlessly combines elegance with cutting-edge technology. Powered by 6 diesel generators, she can reach speeds of up to 21 knots. Her maneuverability is enhanced by two fixed-pitch outward-turning propellers and two rudders with a maximum angle of 45°, ensuring precise control, especially during docking. In addition, 6 thrusters—3 forward and 3 aft—deliver a combined 16,000 horsepower, further refining her handling capabilities. With a maximum draught of 8.45 meters when fully loaded, she promises a smooth and stable journey beneath the waves.
